RE: G20 Leaders' Summit – Anticipated Road Closures and Business Preparedness

Dear Doral Business Owner:

The City of Doral will serve as the site of the G20 Leaders' Summit at Trump National Doral Miami on December 14 through the 15, 2026. To support public safety, security operations, and traffic management, the City and its federal, state, and county partners are expected to temporarily close or restrict access to certain streets and access points within the City of Doral. Some of these measures may begin before and remain in place after the official summit dates.

Because these measures may substantially affect travel through the area, I respectfully encourage businesses within or near the affected area to plan ahead for scheduled deliveries and vendor services, and other measures that could affect travel during the summit period. Where feasible, we recommend allowing employees to work remotely on the days when access restrictions and traffic impacts are anticipated to be greatest.

This request is intended to help reduce congestion, support emergency and security operations, and minimize disruption to our business community. The City recognizes the importance of business continuity and will work to keep you informed so you can plan with confidence.

The City will share updates on anticipated closures, access procedures, and traffic-management measures as information becomes available through official City communications, the City's webpage. Questions may be directed to Constituent Services at(305)510-0202 or constituentservices@cityofdoral.com.

Thank you for your cooperation and partnership as Doral prepares to welcome this historic international event.

Sincerely,

Christi Fraga
Mayor, City of Doral
